

# LUCTRA® FLEX

Whether for a relaxed hour of reading under your favourite tree, for a dinner on your rooftop terrace or for enjoying a glass of wine with friends on your balcony – the mobile LUCTRA® FLEX lamp creates a pleasant atmosphere on warm summer nights.

# MOBILE LAMP LUCTRA® FLEX

Especially in outdoor areas, it is often not easy to find the right lighting for every occasion. Whether for reading by yourself, for a dinner for two or for a social gathering with friends, you need light in various places to create a relaxed, friendly atmosphere, even outdoors.

The LUCTRA® FLEX mobile lamp is the ideal solution for these applications. It offers good light exactly where you need it. It runs on battery power and can be used for more than 25 hours before it needs to be recharged. With its convenient weight of less than 2 kg and a height of about 130 cm, it is easy to take this cordless lamp with you and place it wherever you go.

# EASY TO HANDLE

LUCTRA® FLEX can closely simulate natural daylight. By simply tapping the touch panel, you can easily adjust the colour and intensity of the light to your personal needs and comfort at any time. Thanks to this, you can create a cosy lighting atmosphere, especially for those hours of relaxation in the open air.

LUCTRA® FLEX has already received awards for its functionality and modern minimalist design.

## ABOUT LUCTRA®

LUCTRA® has set out to provide the best possible light for working: innovative, inspiring, reliable, sustainable. Light which not only illuminates, but also makes its users more contented, less tired and perhaps even a little more successful. This works because it gives the right impulses for every situation, perfectly in line with the user's taste.

The biological effect of LUCTRA® light was proven in a clinical study.

All LUCTRA® lamps are developed and assembled manually in Germany.

See [www.luctra.eu](http://www.luctra.eu) for further details about our project support, other products and our team.
